UV Lamps & Lamp/Reflector Kits

If we designed the industry's highest power UV System, imagine how strong we make our lamps!

- ✓ *Lamps in stock ship the same day if ordered before 2pm ET.*
- ✓ *We can cross-reference or design and manufacture any type of UV curing lamp.*

Are all lamps and reflectors created equally?

Not Always. Our lamps and reflectors are equivalent to or exceed those supplied by the original manufacturer and provide substantial savings.

We design and manufacture a wide selection of UV lamps and reflectors, as well as complete UV systems.

SPDI lamps are designed for reliability and performance

Did you know reflectors are responsible for over 70% of the lamps' curing power... that's why we recommend changing the reflectors during every lamp change-out. Doing so will increase the curing consistency, reduce future maintenance and extend life of the lamp.

Reflector Comparison Example:

Photograph on the left shows a light beam from a flashlight with a clean reflector. As a comparison, the beam shown on the right is barely visible because it uses a damaged/dirty reflector.

This example led SPDI to develop the combination UV Lamp/Reflector kit which is the most convenient and cost-effective option. More economical than purchasing only a replacement lamp, the UV Lamp/ Reflector Kit gives you the ability to get more out of your system and a longer period of time between lamp changes.

SPDI sells convenient Lamp/Reflector kits for many UV systems.

Our Range

We can adapt or upgrade any lamp by customizing physical properties or even adjust lamp output to fit your curing requirements.

Make SPDI Your Off-Site Warehouse

We can save you time by simplifying the ordering process, plus free up your budget that is tied to inventory expenses by maintaining your stock in OUR warehouse. Call us for details or visit us online at www.spdiuv.com.

How Can You Save Time Changing Out Lamps and Increase Productivity?

SPDI *Solution Series™* Total-Cure UV Drying System features a quick change Lock-N-Load cartridge for super quick replacement of lamps. NO TOOLS REQUIRED and change-outs take less than 1 minute! See website for demonstration video.

Call us at 800.977.7292 with your specific lamp and reflector application needs, or use our online Lamp Specification Form at www.spdiuv.com.
